He desired to ask the gentleman from Pennsylvania shether he would vote for the repeal of the Kansas and Nebraska act, or, to use the language of the gentleman rom New York [Mr. cage], whether he would yote for he restoration of the Missouri-compromise restriction

Southern Know-Nothing votes were needed just then, and in a few minntes said Fuller had made up his mind to answer what he had declined to answer a few minutes before.

This was on the 13th December. On the 12th of January Mr. Fuller declares that "he never had, and did not now, advocate the constitutionality of the Wilmot proviso." Yet a month before he would have voted to restore the Missonri compromise if it could be restored, and he would have voted against repealing it. Now it is well known proverbial for its filth as ours. if the Missouri compromise is constitutional, so is the Wilmot proviso. If Congress has the power to prohibit slavery North of a line, it has power It is true the answer is one of the pretermitting sort. Having got thus far Fuller broke in and made the have been observed in this age. He thinks slavery and the poor? existed before the Constitution : that Congress had no right to legislate on the subject of slavery; that the Territories are the common property of all the States, etc. He was against every antislavory thing extant.

The brethren have got Fuller about right now, and they had better watch him and keep him so. They have wrought a most wonderful conversion in a very short time. We cantion them to keep a sharp look ont, for the subject of such sudden changes may change back as suddenly. It is now managed on a more practical and commonthe aid proposed, and the good times ahead of us, porting water for cleansing purposes dispensed for a season at least, the Louisville and Nashville road will be built in a reasonable time. We have just now an illustration of the necessity for this road in the closing up of all communication with the South, and the stagnation of business in consequence. The want of facilities of travel in this State, compared with those of our neighbors, is almost disreputable. A number of delegates to value to enjoy all those conveniences and luxuries Frankfort on the 8th of January, from the Southern part of Kentneky, were compelled to go by railroad to Indianapolis, and thence to Louisville or Cincinnati, to reach their destination. We thought it rather humiliating that Kentnekians had to go to the capital of Indiana to reach the capital of their own State. In short, Louisville must have this highway to the South, or stand still whilst all her neighbors are going ahead.

We have also another trial to-day for aid to Water-Works. We have been getting along without them in Louisville, and don't know what we lose. A few months trial and our people would success of the enterprise, and that company is to no more do without Water-Works than they would de without gas lights. > Poor Gas .- A singular fact has just been brough to light in London in regard to gas meters. A careful examination of the gus works of London has established this fact that "the lower the quality of the gas, the greater the velocity with which it flows through the meter; that is, the quantity registered is increased, in proportion as the quality is deteriorated." Thus by the simple process of applying an inferior article, the bills of the conumer may be made larger, although he burns the gas no longer than before, and the income of the ompany considerably angmented, without any coresponding angmentation of the actual cost of the product.

So we give gas consumers due notice that during this month, so far, notwithstanding their gas lights were in many cases, but little better than the light of a glow-worm, they will have a full round price to pay for it.

If Mrs. H. will confine herself to the represents ion of gentle characters, and leave pas ones for stronger voices, she will grow to be a favorite even with us. There existing in the play no necessity for straining her voice, she was not enforced to resort to a false intenation so much a on previous occasions. One Hundreth Edition (600,000) 18mo., pp. 250. standard work of established reputation, found classod in the estalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by

the principal booksellers in the United States.

Every woman can here discover, by comparing her ewn symptoms with those described, the nature, characer, and cause of her complaint, and be spared much anxiety and suffering, as Well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is subject. The wife about becoming a mother has often need of instruction and advice in respect to her situation, which she will here find. This book tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand.

Those suffering from obstructions or irregularities pe-culiar to the female system, or from prelapsus uteri (falling of the womb,) or from fiver albus, will each find in it pages the means of prevention, amelioration, and Much distress of mind, as well as thousands pecur

arily, might be saved to every husband, if the simplest aws appertaining to the marriage state were better un-derstood. That they are better understood is traceable to that natural and almost commendable sensitiveness that will rather softer than consult or converse with even a medical man in respect to complaints peculiar to the female only.

In a copy of "The Married Woman's Private Medical Companion," every female has a physician that know and describes her every symptom, feeling, and ailment, and which she cau consult at all times without violence

Every Day Brings Something New. So much has been said about Ambrotypes, Photoraphs, and Daguerreoty pes that we hardly know which e feel justified in saying to our lady readers, and that s: If they will visit Rosserau's Mammoth Daguerrean Gallery, No. 531 Main street, between Second and Third, they will find some of those elegantiy finished and life ort of the beauty and fashion of the city and country. The pictures taken by Roesberg do not make the light and red hair appear as dark as midnight (a forme fault by fartoe common in Ambrotypes), but they show a proper distinction of light and shade, and "hold, as t were, the mirror up to nature," correctly portraying the peculiar features of the originals. So, we advise all to be no longer humbugged with high priced likee these magnificent pictures may be obtained for fifty cents and upwards. I will not accuse your correspondent of any intention of doing injustice to the city of Jeffersonville, yet such is the effect of his statement as FARMERS WILL FIND THE best of Shovels. Spades, Forks, Rakes, Onting Boxes and Knives, Grindstones, &c., always for sale very cheapby [ja8] A. H. MILES & CO. above. The facts in connexion with the issue of these bonds by the city of Jeffersonville are simply these, by which it will be seen that it is no fault of the city if "the bondholders who invested their money" in these bonds "now find it impossible to TRON, NAILS, AND STEEL, OF hoenberger's manufacture, from Juniata, refined coal Iron, for sale by W.B. BELKNAP & CO.

money" in these bunds have collect the very first compons."

In July last the city of Jeffersonville subscribed \$200,000 to the capital stock of the Fort Wayne and Southern Railroad, upon the express condition and stipulated contract with the Directory of said road that the avails of the bonds of the city which were taken for the subscription of stock by the road should be applied to the completion of that part of the road between Jeffersonville and the jnne-tion of the Ohio and Mississippl road at North Vernon, which would form a continuous line of Vernon, which would form a continuous line of the elected, the first business each DITCH AND OAKUM IN STORE vernon, which would form a continuous line of railroad communication of the same gauge from Louisville, Kentucky, to Cincinnati; and that the any interest upon said bonds until the completion of the road as above etipulated and put into comcity of Jeffersonville should not be accountable for plete running order. I do not now remember plete running order. I do not now remember whether these stipulated conditions are named upon the face of the bonds, but I am sure no purchaser of these bonds, with ordinary business dis-cretion and prudence, could have been ignorant of these facts at the time of the purchase. This being the case, the holders of these bonds must know that the city of Joffersonville will not be bound for the accrning interest upon them until the road to which these bonds were issued has complied with its contract, and until then they must look to the road for their interest. "The Corporation" makes no "excess for failing in its liability," for it has made no such failure. When it becomes liable under its contract that liability will be promptly met.

JEFFERSONVILLE.

HON. WILLIAM BIGLER.-The new Democratic Senator from Pennsylvania, who was nominated on Friday evening last, by the Democratic members of the Legislature, and, in accordance with Democratic usages, triumphantly elected yester-day, may shortly be expected to take his seat. Mr. Bigler was elected Governor of Pennsylvania in 1851, in which canvass he defeated the celebrated William F. Johnson, the well-known leader of the Abolition forces. In that memorable canvases he advocated with signal ability the compromise measures of 1850, including the fugitive slave law; and in 1854, when a candidate for re-election, he met the Nebraska issue npon the stump in a series of masterly and convincing arguments. He was defeated in the campaign by the Abolitionists and Know-Nothings. In 1855, when the Democracy of Pennsylvania met the hosts of fusion, and took issue with them in the most direct and suphatic manner, crowning their labors with an almost unprecedented Democratic victory, it was natural that they should turn to the leader who had been stricken down in the preceding conflict. Governor March, 1855 .- Washington Union.

CONGRESSIONAL.

WASHINGTON, Jan. 13. House .- Mr. Mace, addressing himself to states men, not the mad portions of the House, offered a resolution declaring Mr. Banks Speaker; William Cullum (American), Clerk; A. J. Glosbrener, Sergeant-a-tarms; John M. Johnson, Postmaster; and Z. W. McKnew, Door-keeper. The last three be ing Democratic nominees. The resolution was laid on the table by a vote of 111 to 90.

Mr. Giddings advocated the adoption of the plurality rule, declaring that the House cannot organize on any other principle. He called on the Democrats to follow their own precedent.

Democrats to follow their own precedent.

Mr. Cobb, of Georgia, said that the Democratic cancus in 1849 rejected the plurality proposition, which was subsequently adopted by the Whigs, aided by a few Democrats; and in this statement he was sustained by several gentlemen.

With the Republicans the issue is Banks and disorganization in preference to Mr. Campbell, of Obio, whom they could have elected the other day if all had voted for Mr. Thorington's resolution.

Mr. Giddings—I vote as I please, without going

Mr. Giddings—I vote as I please, without going to Georgia to learn my duty.
Mr. Cobb—If you did you would be better acquainted with them. [Laughter.]
Mr. Tappan, in reply to Mr. Cobb, said the vote

Straw-Cutter Question.

ESSRS. J. B. FORD & CO., OF the city of New Albany, in the State of Indiana, lag to be the owners of Sanford's patent right to The city of New Albany, in the State of Indiana, claiming to be the owners of Sanford's patent right to manufacture what is known as Sanford's Straw-Cutter, have sold the rightto manufacture the same to various persons for occrain prescribed territories, and they have warned the public against purchasing the Straw-Cutter manufactured by us. We have been for a long time estisfied that the so called Sanford patent is a irand, and that it is void, being a palpable puracy and an infringement of the patent right of John Boynton, which bears date 78th day of September, 1885, and has expired. We have been satisfied that the machine de nominated Santord's Perfect Straw-Cutter is constructed, not according to the specifications contained in Boynton's, and all this has been r-cently so decided in the U.S. Circuit Court for the middle district of Innesses on we sold to R. FASHIONABLE POR 12 TO 50 CENTS PER GALLON.

AN OUTLAY OF \$2 WILL FUR
the apparatus for converting Whisky and Water
into the strongest Vinegar in 36 hours, at a cost of two
to three cents per gallon.

The only vessels necessary for this purpose are Wine
or Whisky barrels. The substances with which they are
filled, for the purpose of making Vinegar, can be found
in any of the forests of America. As simple as this
process may appear for the production of Vinegar, the
publishers will forfielt \$100 for every failure.

The most approved methods are given for constructing Rectifiers. Complete instructions for bottling and
barreling all kinds of hquors, and for rendering the
appearance of old barrels new, and for giving age to
new barrels. Instructions for detecting impurities or
adulterations in all kinds of liquote, and for distinguishing French from other qualities of Brandy. Of
the liquors mentioned below, this book gives two inodes
of making them; by the first they are made "off hand,"
requiring only the admixture of the materials as given
in the receipts. Thuse are cheap liquors; their qualities
will be artificial strength, finetaste, and beautiful color.

The second mode requires the use of apparatus, and a
certain length of time Is allowed for the spirit to menlow.

The Oldest Stand in Louisville.

RS. NICHOLAS INVITES THE attention of her customers and others to her newly invented Ventilating Diamond Wigs. These Wigs were invented by Richard Beck, of London, and made by one of the gentlemen in my establishment, who took the highest promium for the best Wigs on exhibition at the Industrial Exhibition, London, in 1854. They are warnted not to shaink; (those who have worn Wigs know that the greatest comfort in a Wig is in one that will not shrink at ALL;) besides they are so close are semblance to nature as to defy detection. And to enable gentlemen to see the effect, a large assortment is kept on hand for inspection, any of which, if approved of save the purchaser both time and trouble, as these elegant specimens of Wigs cannot be found clsewhere. Also, a splendid assortment of Ladies Wigs, Half Wigs, Braids, and Curls, always on hand and made to order at the shortest notice. Brushes, Perturery, Gloves, and a general assortment of Fancy Goods of the very latest importations.
